This addendum is being provided in clarification to ITT CS-22-07 released December 15, 2022.

Question 1: Our Engineering department has let me know that the foundation will be quite a bit larger than what was proposed on the design. I am asking how much room we have to the east? I know it was stated we can move north if the foundation was bigger but no mention of movement to the east. This will change the location of the tower center as well, so I need to make sure that is acceptable.

**Answer 1: The tower base can be moved to the East and North if needed.**

I/We hereby verify that we have considered this addendum in our tender submission.
