The Regional District will be under no obligation to obtain additional clarification from any bidders(s) prior to preparing an initial "short-list" or before entering into detailed discussions, or negotiations, with any bidder.

7.2 Selected Bidder Negotiations

The Regional District, at its sole discretion, reserves the right to enter into contract negotiations with a selected bidder, or bidders, based only on the evaluation of the written quote(s), and/or an evaluation of the combination of the written quotes, oral presentations, and/or detailed discussions.

The Regional District reserves the right to enter into negotiations with any bidder without requiring any other bidders to make a presentation or to enter into detailed discussions with the Regional District.

7.3 Termination of Negotiations and/or ITQ Process

The Regional District reserves the right to terminate contract negotiations with any bidder, and to enter into contract negotiations with any other bidder(s) if, in the opinion of the Regional District at any time, the contract negotiations with the initially selected bidder will not be satisfactorily completed in the best interests of the Regional District.

The Regional District may, at its sole discretion, reject any or all quotes at any time throughout the quote evaluation, bidder selection, or contract negotiation process.

Non-compliance or variances with the specific ITQ specifications will not necessarily result in rejection of a quote. The acceptance or rejection of all non-compliant items, and/or variances to the ITQ specifications, must be at the sole discretion of the Regional District, without any obligation by the Regional District to either request clarifications, enter into detailed discussions, or negotiations with the bidder.

13.2 Notice

The Regional District will endeavor to provide a minimum of two weeks written notice to the Contractor that engineering services will be required for a specific project. Upon receiving written notification by email, the Contractor will acknowledge receipt by email to the Regional District within 24 hours. The Community Services Manager and/or the Senior Manager of Public Safety Operations, and the Contractor will define project duration expectations and timelines for the project which will be reflected on the purchase order. The Contractor may begin the engineering project immediately upon receipt of a purchase order but will begin the project no later than two weeks after having been so notified, unless a later date is mutually agreed to by both parties and specified on the purchase order.

Where the Regional District is unable to provide two weeks notice to the Contractor, but the project is not an emergency, the Community Services Manager and/or the Senior Manager of Public Safety Operations, and the Contractor will mutually agree upon a reasonable timeline which will be so noted on the purchase order.

There may be instances in the case of an emergency situation where the Regional District retains the right to engage engineering services from other than the successful bidder.

Upon the termination of the Force Majeure event, the Regional District shall grant to the Contractor a time extension for performance of any milestone dates required as part of the Services as may be agreed with the Contractor or, if the Regional District and the Contractor are unable to reach agreement as determined by the dispute resolution process under Section 14 on page 12 of the ITQ. Where, as a result of Force Majeure, there is a material increase in the Contractor's cost of or the time required for the performance of the Services that is not offset by a decrease in cost, then the Regional District shall increase the amount of the service fee payable to the Contractor under Section 13.8 on page 11 of the ITQ, as may be agreed by the Contractor. If the event of Force Majeure results in a material increase in the cost of the work to be performed in respect of which the Contractor is providing the Services, then the Regional District may choose not to proceed with the completion of the work and may terminate this Contract. If the Regional District terminates this Contract following the termination of the Force Majeure event, then it shall compensate the Contractor in accordance with Section 13.10 on page 12 of the ITQ.

The Regional District will, by the thirtieth day of the month following that for which payment is required on receipt of an invoice and on advice from the Manager that the Work has been satisfactorily carried out, pay the Contractor for Work completed in accordance with the Contract in the previous month. No payment will be made for materials supplied by the Regional District.

Each project undertaken by the Contractor will not proceed until a purchase order is issued by the Community Services Manager and/or the Senior Manager of Public Safety Operations. The purchase order and accompanying scope of work document(s) will lay out the scope of the engineering work required to be done by the Contractor for the project. The purchase order number and Contract Number CS-25-02 is to be quoted on the Contractor's invoice to the Regional District.

No changes will be undertaken by the Contractor without written order of the Regional District, except in an emergency endangering life or property, and no claims for additional compensation will be valid

The Community Services Manager and/or the Senior Manager of Public Safety Operations responsible for the project, or their delegate, may complete periodic inspections of the work. Should any deficiencies be found the Contractor will be notified and receive a written copy of the inspection report.

Upon failure of the Contractor to perform the work in accordance with the specifications of the project purchase order or of this Contract, and after written notice to the Contractor, or without notice if any emergency or danger to the work or public exists, the Regional District may, without prejudice to any other remedy it may have, correct such deficiencies. The cost of the work performed by the Regional District in correcting deficiencies will be paid by the Contractor or may be deducted from monies payable to the Contractor.

13.10 Provisions for Termination or Suspension of Contract

For unsatisfactorily performed work, the Contractor will, with written notice from the Regional District, have three days to correct deficiencies. If not completed within three days or any other reasonable time agreed upon by the Regional District, the Regional District has the right to correct them at which time the Regional District has the right to withhold costs from payment to the Contractor. After three such written notices, the Contract will be terminated.

The Regional District will have the right to terminate the Contractor's right to continue with the work of the Contract if, at any time, the Contractor becomes bankrupt, makes an assignment of their property for the benefit of creditors, or if a receiver or liquidator should be appointed, and that such termination shall be effective upon the Regional District giving notice thereof.

The Regional District shall compensate the Contractor for all Services performed hereunder through to the date of any termination and all-reasonable costs and expenses incurred by the Contractor in effecting the termination. All drawings, plans or other documents resulting from the Services, whether complete or in a draft form, produced by the Contractor prior to the termination of the Contract, will be provided to the Regional District within ten (10) business days of the termination date.

14.0 DISPUTE RESOLUTION

If a claim, dispute, or controversy arises out of or relates to the interpretation, application, enforcement, or performance of Services under this Contract, the Contractor and the Regional District agree first to try in good faith to settle the dispute by negotiations between senior management of the Contractor and the Regional District. If such negotiations are unsuccessful, the Contractor and the Regional District agree to attempt to settle the dispute by arbitration if both parties agree. If the dispute cannot be settled through arbitration, the Contractor and the Regional District may agree to attempt to settle the dispute through good faith mediation. If the dispute cannot be resolved through mediation and unless otherwise mutually agreed, the dispute shall be settled by litigation in an appropriate court in the Province of the Regional District.
