10:00 a.m. at the Giscome Portage Regional Park Huble Homestead Historic Site

---

Staff Present: Bryan Boyes – Utilities Leader  
Matthew Ens – Environmental Service Worker 1

Companies Present: Can You Dig It Contracting

Introduction and sign in sheet completed

Meeting started at 10:00 a.m.

Project Review: Caretaker House Demolition – brief overview of project.

**Question 1: Where does the power come from?**

Answer 1: There is a generator from the shed, solar powered.

**Question 2: Is it all pink insulation – asbestos ?**

Answer 2: Yes, as far as we know, it is pink insulation

**Question 3: Is the propane tank removeable for machine access?**

Answer 3: Unsure if it is unhooked, but the propane tank can be removed.

**Question 4: Where are the Solar Batteries? Can they be disconnected?**

Answer 4: In the basement in a wooden box, it is possible to disconnect them. We are planning to keep the basement foundation.

**Question 5: Does the contractor supply the SeaCan?**

Answer 5: Yes, it's to be fitted for the current solar battery setup for the electrical source.

**Question 6: Can you take a tree out if needed?**

Answer 6: If necessary, provided it does not affect multiple trees.

Meeting Adjourned 11:00 a.m.
