**Addendum No. 1**

**Request for Proposals ES-24-02  
Engineering Consulting Services - 2024 Well Field Review and Expansion  
Foothills Boulevard Regional Landfill**

The addendum is being issued prior to the closing of the Request for Proposals to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Proponents shall attach a signed copy of this addendum to their proposal.** This addendum shall form part of the Contract Documents.

This addendum is being provided in clarification to RFP ES-24-02 released January 10, 2024

Question 1: In reviewing the RFP, 'Bidder' understands that part of the scope of work includes on-site construction supervision. As per the RFP, the construction phase is anticipated to occur during summer and fall 2024. For the purposes of putting together the financial proposal, can the Regional District provide the number of on-site hours (or number of working days) that should be assumed for the on-site portion of the construction supervision? This would be helpful to ensure that all proposals can be evaluated fairly.

Answer 1: The level of construction oversight (outside of the items identified in the RFP) required, shall be determined by the Proponent. The successful proponent will be expected to provide services in accordance with a standard of care, skill and diligence maintained by a person (or firm) providing the services described herein.

Question 2: Would the RDIFFG consider extending the proposal closing time to Friday February 2, 2024 at 2pm?

Answer 2: The Regional District of Fraser-Fort George has extended the closing time to Friday February 2nd, 2024, at 2pm.

I/We hereby verify that we have considered this Addendum No 1 in our RFP submission.
