Addendum No. 1

**Request for Proposals ES-24-04
Cell Two Grubbing and Grinding
Foothills Boulevard Regional Landfill**

The addendum is being issued prior to the closing of the Request for Proposals to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Proponents shall attach a signed copy of this addendum to their proposal.** This addendum shall form part of the Contract Documents.

This addendum is being provided in clarification to RFP ES-24-04 released March 7, 2024.

Question 1: Can the organic mat stay after removal of the stumps in the area beyond phase one of Cell Two development?

Answer 1: As this is determined to be a unit priced function of the contract, (See Mandatory Site Visit Minutes), at this time the removal of the organic layer over the approximately 7 hectares identified on the attached photo of the project area should be considered. Stumps and loose organic debris will still need to be removed from the entire project area.

Question 2: Can the Contractor work on weekends within the operating hours of the landfill?

Answer 2: At this current time no, however if time to have the scope of work completed within the dates of the contract document, then consideration may be given only if deemed by the Regional District to be beneficial to the timely completion of the project.

Question 3: Can a Contractor remove the organics of site to grind?

Answer 3: Yes, the Contractor can remove the organics off-site for grinding, but at no extra cost to the Regional District.

I/We hereby verify that we have considered this Addendum No 1 in our RFP submission.
