

SOIL & OTHER MATEIRAL CONTROLLED WASTE DISPOSAL

Foothills Boulevard Regional Landfill (FBRL) is authorized under the *Environmental Management Act*, though *Operational Certificate MR-01697* to receive waste for disposal, including controlled waste, which is defined as material requiring additional or special handling when tipped at the landfill. Certain controlled waste types are only accepted with an approved permit issued by the Regional District of Fraser-Fort George (RDFFG).

The RDFFG is authorized to accept impacted (contaminated) soil, that is below any applicable standards that would classify the soil as 'hazardous' as defined in the [Hazardous Waste Regulation \(HWR\)](#). The RDFFG does not accept contaminated soil or other materials that fall under Column 9 (Industrial) of the [Contaminates Sites Regulation \(CSR\), Schedule 3\(1\)](#).

With the exception of asbestos, other material that is 'hazardous' as defined in the [Hazardous Waste Regulation \(HWR\), Section 41\(1\)](#) will not be accepted. The RDFFG may accept, hazardous waste from accidental spills or abandonment, as per circumstances outlined in [Section 52\(1\)](#) of the HWR.

This application applies to the disposal of impacted (contaminated) soil and other controlled waste material from within the boundaries of the RDFFG.

Allow up to two (2) business days for response.

Disposals are by appointment on, **Tuesday, Wednesday, and Thursday**
between **9:00AM – 1:00PM**.

Requirements and restrictions for disposal of soil and other material:

- Analytical results for other material submitted as required.
- Analytical results for soil include contaminants of concern per [BC, CSR, Schedule 3.1](#).
- [Soil Relocation Notification Form](#) is completed by a qualified professional, unless exempt.
- *[Generator Number \(BCG#\)](#) is obtained, unless exempt.
- Carrier has a Manifest issued by the province of BC, unless exempt.
- Materials with a volume greater than 1.5 cubic meters and 2.5 meters in length are classified as "Bulky Waste" and will be charged for accordingly.
- Carrier's transport bins must not exceed 20-yard³ in volume, and 6500 kilograms in weight.
- Carrier must be prepared to unload waste.
- Carrier wears Personal Protective Equipment (PPE) as per WorkSafeBC.

RDFFG employees will escort and inspect all loads and are NOT responsible for unloading.

* Per the HWR [s.43(1)], a person, partnership or company in B.C must register as a generator of hazardous waste and obtain a Generator Number (BCG#) if they produce and or store at an onsite facility, a quantity of a category of hazardous waste greater than the quantity set out in [Column II Schedule 6](#) opposite that category, must register the hazardous waste and apply for a Generator Registration number within 30 days.

Visit the Province of BC's website for additional information

PERMIT APPLICATION

SOIL & OTHER MATERIAL DISPOSAL

Date: _____ <i>mandatory (filled by applicant)</i>	Application No.: _____ <i>office use only</i>
--	---

Use the current version of this form, available on the RDEFG's website. Applications received using outdated forms will be returned to the applicant for resubmission. Applications must be submitted digitally; printed forms will not be accepted.

APPLICANT INFORMATION

Define who is filling out this form – check the appropriate box:

- Generator
 Third Party (Carrier, Contractor or Agent on behalf of the Generator)

If this form is filled by a Contractor or Agent, provide the following information and include the name of a contact person.

Contractor or Agent

First Name		Last Name	
Company (if applicable)			
Mailing Address			
City	Province	Postal Code	
Telephone	E-mail		

SOURCE SITE & CONTACT INFORMATION

PID, legal description, and coordinates are NOT required if civic address is available. Coordinates and attached scale map are required if civic address, legal description, or PID is unavailable.

- Soil Other Material
 [Soil Relocation Notification Form](#) included with this application
 [BC Generator Registration](#) BCG#: _____

Source Site

Street Address		
City	Province	Postal Code
Legal Description		PID
Easting/Longitude	Northing/Latitude

Telephone	E-mail		

CONTROLLED WASTE TYPE

The following wastes require written permission (permit) before disposal at FBRL. Check the appropriate box to indicate which controlled waste you wish to dispose of.

- Contaminated soil
- Condemned food
- Biosolids (municipal treatment plants)
- International waste

This application is for a single type of controlled waste; however, any controlled waste can also be **bulky waste** if it is **greater than 1.5 cubic meters in volume and 2.5 meters in length**. There are additional tipping fees for controlled waste that is also bulky waste. Check the box next to “bulky waste” if it applies to this application.

- Bulky waste

IMPACTED SOIL

Include results from an accredited laboratory, and report from a Qualified Professional (QP) describing source material, cause of contamination, sampling methodology, analysis, and comparison of analysis results to *Schedule 3.1 of the Contaminated Sites Regulation*. The QP must attest the soil is not Hazardous Waste as defined by the *Hazardous Waste Regulation* and is suitable for disposal at FBRL.

Soil Texture Class: indicate if the soil is sand loam, silt loam, silty clay loam, etc. **Soil Quality Class:** indicate if soil is classed as Residential (<= Residential Waste Quality Standards); Commercial (<= Commercial Quality Standards); Industrial (<= Industrial Quality Standards); Waste (> Industrial Quality Standards < standards for Hazardous Waste); Refer to site specific factors in [CSR, Schedule 3\(1\)](#) to complete this section of the form.

- Analytical Results (mandatory)
- SDS (optional)

Soil Texture Class	
Soil Quality Class	
Percentage of Coarse Fragments (%)	

OTHER MATIERAL

Describe the controlled waste, including source site, composition of material, and main contaminants of concern. Be aware that other information may be requested by the application reviewer, such as results from an accredited laboratory and/or a report from a Qualified Professional (QP).

- Analytical Results
- SDS (optional)
