

Nobody can do what Pathfinder does

It's MFAP simplified. It's a validated stepped care approach to your overall mental health and wellness developed through almost 140 years of mental health leadership and over 40 years of MFAP experience.

Pathfinder tailors personalized care plans and service recommendations based on your unique presenting concern(s). It includes an assessment of the severity of your concern and combines the optimal clinical solution with your unique preferences to create a customized and curated care path.

Enhanced mental health care (EMHC)

Employees may be eligible for specialized psychotherapy related to anxiety, depression, trauma, and/or substance use. Employees will be directed to this program by our Intake team if it is most clinically appropriate following assessment with an Intake Counsellor.

The EMHC program includes the use of clinical measures and the principles of measurement-based care in order to effectively:

- Monitor progress
- Provide feedback
- Support the employee's overall motivation to participate in treatment
- Guide treatment planning

Pathfinder Comprehensive

- Health Challenge Event
- Digital Leadership Mental Health Training (LMS)
- Crisis Management Service (CMS)
